

SHEIKH WASIMUDDIN

+91 9589154386 | sheikhwasimuddin786@gmail.com | in/sheikhwasimuddin | github.com/sheikhwasimuddin | sheikhwasimuddin.dev

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in IoT and Cloud Computing, with hands-on experience in developing real-time systems and full-stack web applications. Passionate about building scalable, real-time solutions and solving complex problems using emerging technologies.

EDUCATION

Yeshwantrao Chavan College of Engineering

2023 – 2027

B.Tech. – Computer Science and Engineering (IoT Major, Cloud Computing Minor)

CGPA: 8.70/10

Relevant Courses: DBMS, OS, OOPS, Machine Learning, IoT

EXPERIENCE

Centre of Excellence in Product Design and Smart Manufacturing, MANIT Bhopal June 2025 – July 2025
Summer Research Intern *Bhopal, India*

- Built an interactive web interface for patient registration, vital sign visualization, and emergency alerts serving real-time healthcare monitoring.
- Designed an AI-powered medical assistant incorporating IoT sensors for real-time patient monitoring.
- Achieved 92% prediction accuracy using machine learning models for disease and vital sign analysis.
- Technologies:** Python, TensorFlow, FastAPI, React, Firebase, Machine Learning, IoT sensors.

QuickAyur (A Unit of Kriti Hamsa Solutions Pvt. Ltd.)

Feb 2026 – May 2026

Web Development Intern

Remote

- Implemented 8+ frontend modules and REST APIs for healthcare applications, improving UI responsiveness and reducing page response handling time.
- Built 10+ reusable React UI components and optimized backend connectivity for smoother user interaction.
- Collaborated with the development team to restructure API services and improve application workflow efficiency.
- Technologies:** React, JavaScript, REST APIs, Firebase, Git/GitHub.

PROJECTS

Data Snap (Online Forms and Surveys Platform)

datasnaps.onrender.com

- Created an online forms and surveys platform with dynamic form creation and response management features.
- Enabled response collection, form control, and required field management.
- Technologies:** HTML, CSS, JavaScript, Flask, Firebase

NAZAR (Smart Blind Stick for Safe and Independent Navigation)

github.com/sheikhwasimuddin/Nazar

- Developed an IoT-enabled smart blind stick using ESP32 and 7+ sensors for real-time obstacle and environmental conditions.
- Engineered adaptive feedback logic that varies vibration intensity and voice notifications based on obstacle proximity and hazard severity.
- Technologies:** ESP32, Embedded C/C++, Kotlin, Firebase, IoT

MedIoT (Medical Internet of Things Platform)

medicaliot.netlify.app

- Built a smart healthcare monitoring system combining IoT sensors with a web dashboard.
- Implemented real-time patient tracking, emergency alerts, and AI-based disease prediction.
- Technologies:** React, Firebase (Authentication, Firestore), Python, IoT sensors

TECHNICAL SKILLS

Languages: Java, C, JavaScript, Python

Frameworks: React, Express.js, Node.js

Tools: Power BI, Excel, Cisco Packet Tracer, Figma, Netlify, Render

Skills & Knowledge: Git/GitHub, REST APIs, IoT

Databases: Firebase, MySQL, Supabase

EXTRACURRICULAR ACTIVITIES

- Co-head Design – CTSC
- Database Executive – Tech Fest (CT)
- Database Co-head – YASH 26.0
- Database Team Member – GFG Student Chapter, YCCE
